

EVOKO PUSCO

The easy way out for public space communication

Plug in

Forget all the hassle of researching and installing all components needed for digital signage. Evoko Pusco is a complete public space communication system. Everything you need in one product. All you have to do is plug in two cables. All support and warranties are guaranteed by Evoko. We have focused on the technology so that you can focus on what really matters – creating the impact you are after. For public space communication, Evoko Pusco is the easy way out.

Prepare

With our pre-made templates and applications you can quickly publish the content you want. You no longer have to worry about the time consuming process of creating tailor-made content or complex publishing systems. Evoko Pusco is a straight forward solution that anyone can use. Different people in the organization can be responsible for updating information based on their function within the company. The built in lights and sound can be adjusted to emphasize your messages by setting them to be automatically triggered by different events on the screen. Create and schedule a playlist for each Evoko Pusco, or group them together. Evoko Pusco is a unique system; just select the applications that is right for you and start getting results. Guaranteed to look good, every time.

Reach out

Regardless if you are an innovative office, a courteous hotel or a professional law firm, your public spaces benefit from better communication. Make your customers feel more welcome in the reception and make them up to date on your business. Drive employee engagement through project updates, goal dashboards and sharing company values. Share the news, the company's Twitter feed or give everyone a clear overview of the meeting room status. Whether you want higher customer satisfaction, employee motivation or internal efficiency, Evoko Pusco has the application you need.
